

SiS Tech[™] **Skill Center**

Vocational Training Provider(VTP)

सत्यमेव जयते

GOVERNMENT OF INDIA
MINISTRY OF SKILL DEVELOPMENT
& ENTREPRENEURSHIP

Swapnil Institute of Software Technologies(SiS Tech)

OVERVIEW OF SiS TECH

- *SiS Tech, Has been established with an objective to provide skill oriented training courses, for better employability within the parameters defined by the Government of India under different skills oriented schemes.*
- *Different Researches conducted by The different agencies including the Government of India which has revealed that a huge gap exists between supply and demand of productive manpower availability in India, that is why the present Government has focused on the non productive workforce to become productive.*
- *Research studies also suggest that our manpower not only lack the skills to perform the particular job but also lack the sufficient academic knowledge as per the international bench mark. This situation increases the cost inputs as well as the delivery period of finished goods to customer takes long time, so it is absolutely necessary for us to upgrade our skill training program so we are more productive and efficient.*
- *Our achievements:*
 - *ISO certified organisation.*
 - *More than 15000+ students are trained and placed.*
 - *Vocational Training Provider under Min. of Skill Development & Entrepreneurship*
 - *Assessor under SDIS, Ministry of Skill Development & Entrepreneurship*
 - *DOEACC/NIELIT CCC , O level accredited centre*
 - *100+ companies are associated for placement/job*
 - *University Courses councillor for various distance and regular universities.*
 - *Training Partner with all leading Govt. Skill development schemes PMKVY, PMG-DISHA, UPSDM, DDU-GKY, SSC, ESDM, NUML etc*

SIS TECH is one of the professionally managed multi-skilling center imparting vocational training through a focused approach which starts from counseling the youth about the skills which they require for better employability.
