MCA (4 semester 2 year only)

Fees: 18000/Yearly

MCA Job Opportunities :

The job-creation competency appended to this degree is quite vast. Once students have completed this degree, they can surely get jobs and work on various profiles. Various industries including IT, Medical Sciences, Engineering, and many more, do require candidates having considerable knowledge of computers. So, there are different job openings and decent profiles where students can work.

Program Introduction:

Master of Computer Applications (MCA) is a two year professional post-graduate programme for candidates wanting to delve deeper into the world of computer application development with the help of learning modern programming language. The programme is a blend of both theoretical and practical knowledge. An MCA degree endows students' an opportunity to work with tools meant to develop better and faster applications.

Programme Features:

1. Courses are mapped with emerging opportunities in the corporate world.
2. The programme is of Four semesters, with online classes conducted on weekends or after business hours.
3. Contact-less and safe Online exams facility.
4. Lectures are delivered by faculty members and experienced industry professionals.
5. The Dissertation in the final semester enables students to apply concepts and techniques learnt during course work to solve current environmental problems.

Eligibility:

1. Working Professionals with Graduation having minimum 45% marks or its equivalent
